

# GEYSER BASICS

## HOW TO SAVE ENERGY

ARISTON

HEATTECH

### REDUCE FLOW

Using a flow restricting water fitting to reduce your hot water usage

### SHOWER INSTEAD

Showering reduces your hot water usage significantly

### USE LESS

Reduce the amount of hot water used throughout the day

### REDUCE TEMP

Reduce the geyser temperature to 55° in Summer and 60° in Winter or even less if you can

## HOW TO SAVE ENERGY

### TIMER SWITCH

Use an Electronic timer to regulate when your geyser is switched on

### CLASS B

Upgrade your old geyser to a Class B, the most efficient water heater on the market

### POINT OF USE

Use a Point of Use water heater in area's far from the geyser to reduce water and energy wastage

### WRAP / COVER

Insulate your hot water pipes to reduce heat loss and cover your geyser with additional insulation
